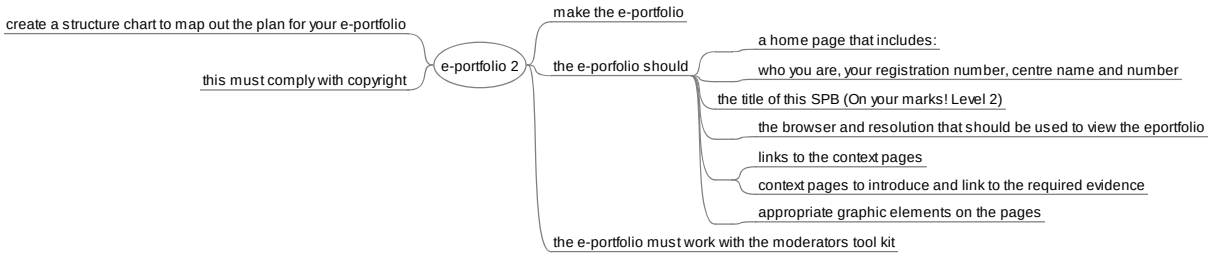
Ask for feedback and make neccesary changes
create and test discovery board
save in action folder

include the appropriate graphics for each of the context pages

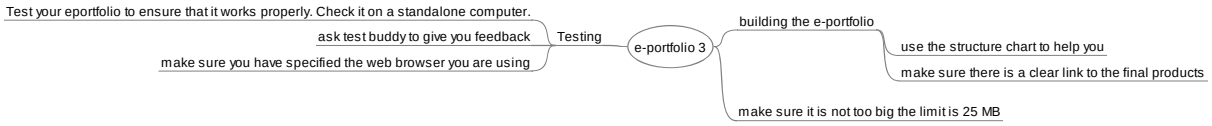
e-portfolio 1

you must show graphic products as well as supporting evidence

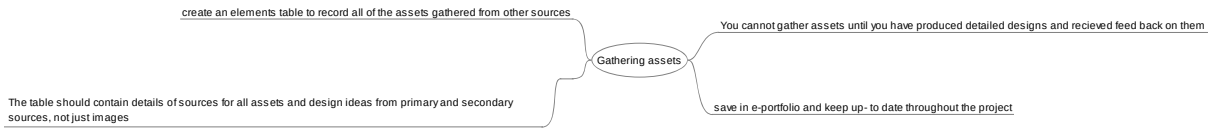
make a detailed list of everything you need in the e-porfolio



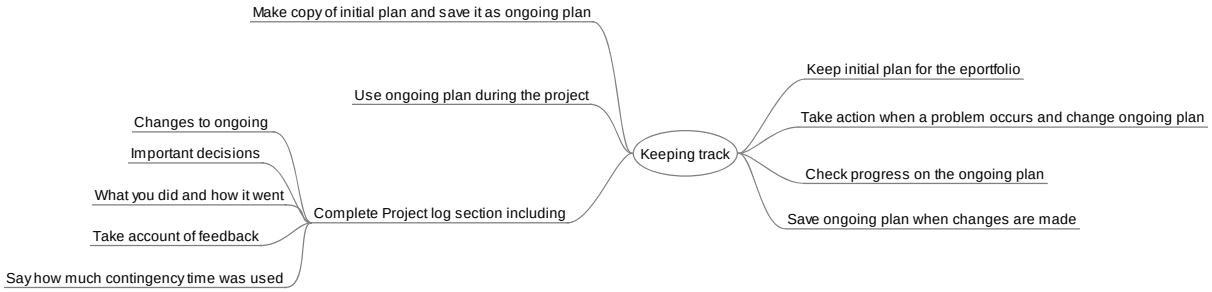
create a structure chart to map out the plan for your e-portfolio
this must comply with copyright
e-portfolio 2
make the e-portfolio
the e-porfolio should
a home page that includes:
who you are, your registration number, centre name and number
the title of this SPB (On your marks! Level 2)
the browser and resolution that should be used to view the eportfolio
links to the context pages
context pages to introduce and link to the required evidence
appropriate graphic elements on the pages
the e-portfolio must work with the moderators tool kit



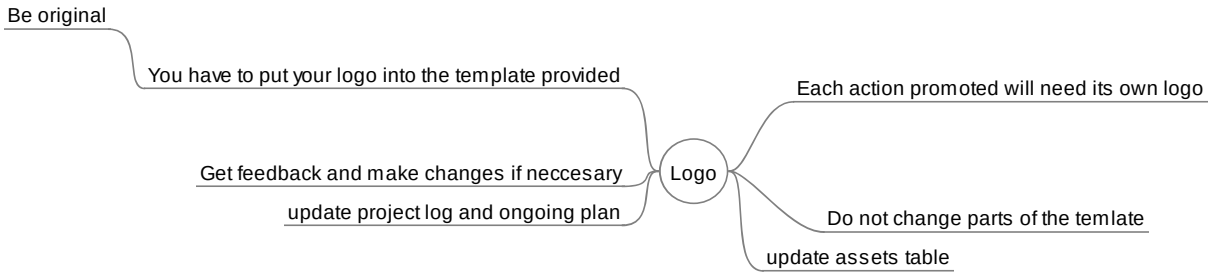
e-portfolio 3
building the e-portfolio
use the structure chart to help you
make sure there is a clear link to the final products
make sure it is not too big the limit is 25 MB
Testing
Test your eportfolio to ensure that it works properly. Check it on a standalone computer.
ask test buddy to give you feedback
make sure you have specified the web browser you are using



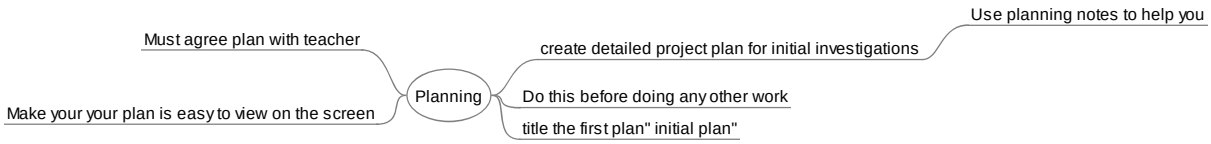
Gathering assets
create an elements table to record all of the assets gathered from other sources
The table should contain details of sources for all assets and design ideas from primary and secondary sources, not just images
You cannot gather assets until you have produced detailed designs and recieved feed back on them
save in e-portfolio and keep up- to date throughout the project



Keeping track
Make copy of initial plan and save it as ongoing plan
Use ongoing plan during the project
Complete Project log section including
Changes to ongoing
Important decisions
What you did and how it went
Take account of feedback
Say how much contingency time was used
Keep initial plan for the eportfolio
Take action when a problem occurs and change ongoing plan
Check progress on the ongoing plan
Save ongoing plan when changes are made

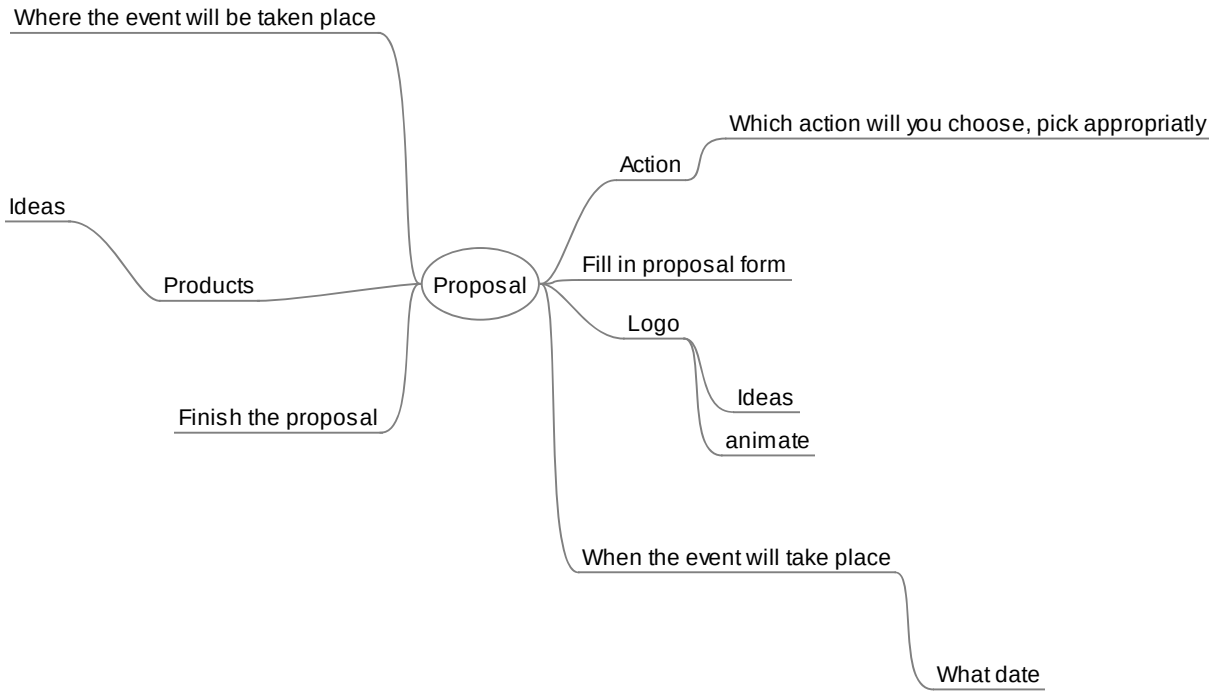


Be original
You have to put your logo into the template provided
Get feedback and make changes if neccesary
update project log and ongoing plan
Logo
Each action promoted will need its own logo
Do not change parts of the temlate
update assets table

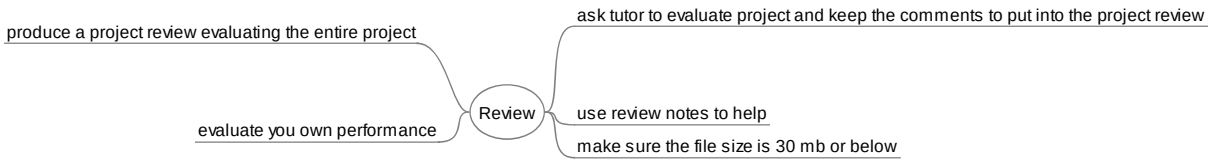


Use planning notes to help you
Must agree plan with teacher
create detailed project plan for initial investigations
Planning
Do this before doing any other work
Make your your plan is easy to view on the screen
title the first plan" initial plan"

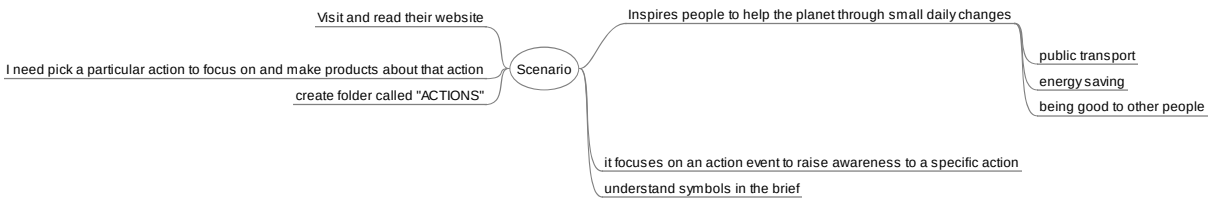
Podcast
Produce a timeline story board and a script for the podcast
save storyboard and script to e-portfolio
save the podcast in the actions folder
The podcast must :
Start with the logo
Show your chosen action being carried out
include voiceover persuading people to do the action
not include credits
run for no longer than 60 seconds
be a suitable size for a portable size
Rehearse to check timings and get feedback from the teacher to get advice if changes are needed
Produce and edit the podcast
update assets folder and ongoing plan



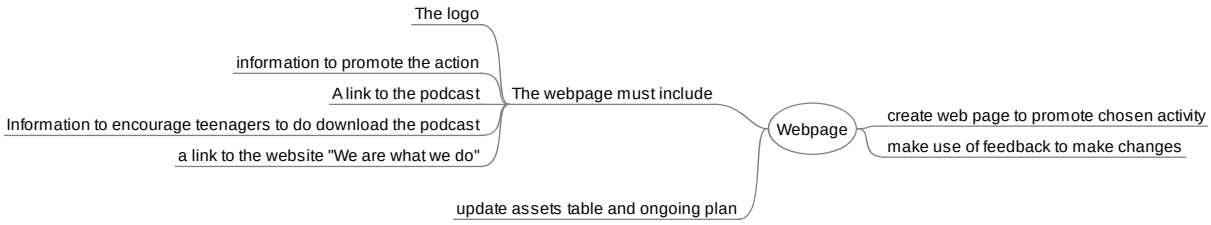
Where the event will be taken place
Which action will you choose, pick appropriatly
Action
Ideas
Products
Proposal
Fill in proposal form
Logo
Ideas
animate
Finish the proposal
When the event will take place
What date



produce a project review evaluating the entire project
evaluate you own performance
Review
ask tutor to evaluate project and keep the comments to put into the project review
use review notes to help
make sure the file size is 30 mb or below



Visit and read their website
I need pick a particular action to focus on and make products about that action
create folder called "ACTIONS"
Scenario
Inspires people to help the planet through small daily changes
public transport
energy saving
being good to other people
it focuses on an action event to raise awareness to a specific action
understand symbols in the brief



Webpage
create web page to promote chosen activity
make use of feedback to make changes
update assets table and ongoing plan
The webpage must include
The logo
information to promote the action
A link to the podcast
Information to encourage teenagers to do download the podcast
a link to the website "We are what we do"
